FOR LEARNERS

Learn Digital Skills That Open Doors

Accessible, practical, and inclusive — our programmes are built

around how you learn, not how others expect you to.

What You'll Gain

Everything you need to enter, grow, and thrive in the digital economy.

- ✓ **Learn digital skills** — practical, in-demand, and accessible from day one
- ✓ **Real-world projects** and portfolio development to showcase your abilities
- ✓ **Career readiness support** — employability coaching and job placement pathways
- ✓ **Freelancing & entrepreneurship** opportunities to work on your own terms

- ✓ **Access to internships and jobs** through our partner network

Learn. Work. Thrive. →

WHY TERNKONNECT ACADEMY?

Designed Around the Learner, Not the System

Five pillars that make Ternkonnnect different — and keep our learners coming back.

Accessibility First

Every course is designed to be accessible and inclusive for diverse learners — from the ground up, not as an afterthought.

Practical Learning

Gain skills that can be applied immediately in education, employment, and entrepreneurship — real work, real impact.

Personalized Support

Access learning accommodations, assistive technologies, and one-on-one guidance tailored to your needs.

Career & Economic Pathways

Connect learning with real employment, freelancing opportunities, and business development support.

Recognized Certification

Earn certificates that credibly showcase your skills and achievements to employers and partners.

Community-Led Growth

Learn alongside a growing network of inclusive learners, educators, and organizations across Nigeria.

WHO WE SERVE

Built for Learners and Leaders Alike

Whether you're building your career or building more inclusive institutions — there's a place for you here.

Learners

Persons with visual impairments

Persons with hearing impairments

Persons with learning disabilities

Youth seeking digital opportunities

Educators & Organizations

Teachers and trainers

School leaders and administrators

Educational institutions

NGOs and disability-focused organizations

OUR MISSION

To create a world where **disability is never a barrier** to learning, employment, or opportunity – by providing accessible education, assistive technology, and pathways to economic empowerment.

TERNKONNECT ASSISTIVE TOOLS

Technology That Removes the Barrier

Our built-in assistive tools ensure every learner can access, engage with, and complete their training — regardless of disability type.

Screen Reader Support

Full compatibility with NVDA, JAWS, and VoiceOver so visually impaired learners navigate every course.

Closed Captions & Transcripts

Every video includes accurate captions and downloadable transcripts for deaf and hard-of-hearing learners.

Adjustable Reading Tools

Font size, spacing, dyslexia-friendly typefaces, and high-contrast modes for learners with reading disabilities.

Keyboard-Only Navigation

Every feature is fully accessible by keyboard alone — no mouse required.

Cognitive Load Controls

Simplified layouts, chunked content, and progress checkpoints designed for neurodivergent learners.

Mobile-First Access

Optimised for low-bandwidth mobile devices, ensuring access beyond desktop environments.

IMPACT

Changing Lives, One Learner at a Time

Real outcomes for real people — across Nigeria and beyond.

"Ternkonnnect gave me a pathway into tech that actually worked with my disability — not around it."

— Early learner, Data Entry & Virtual Assistance cohort

OUR STORY

Built From the Ground Up – With Inclusion at the Core

Ternkonnnect was founded on a simple but urgent belief: that disability should never determine someone's access to education, employment, or economic opportunity. In Nigeria, millions of persons with disabilities are locked out of the digital economy — not because of their abilities, but because the systems were not designed for them.

We started Ternkonnnect to change that — with accessible digital skills training, assistive technology, and direct pathways to jobs and entrepreneurship. We work with learners, educators, schools, and NGOs to build an ecosystem where inclusion is the standard, not the exception.

We are pre-launch and growing fast — with institutional pilots underway and a community of learners ready to begin.
